Care and Support

We are dedicated to living life to the fullest and actively promote independence at every opportunity. We are firm believers that the people we help should have access to all of the opportunities available to the general public.

A bit about us

Fig Tree Care and Support was founded in 2010 and has been offering award-winning support and care to people with mental illnesses and learning disabilities. Nothing is ever too much when it comes to giving the finest level of care, and each of the services we provide has the individual at its core.

We explore opportunities for education, work, leisure, and relaxation as part of our person-centred approach. To achieve the greatest potential results, we collaborate with the people we serve, as well as their friends and family.
